

Spread the word - Help local people have their say on the future of the NHS in East Sussex, Brighton & Hove, West Sussex and East Surrey.

We need your help!

Healthwatch East Sussex, along with the Healthwatch in West Sussex, Brighton and Surrey are launching a series of activities to encourage the people to have their say about the future of the NHS in our area.

Healthwatch is the independent health and care champion. Through 'What would you do?' we will seek to reach as many people, groups, and communities as possible to get feedback on how local NHS services should change.

The Government is investing £20 billion a year in the NHS, as part of the NHS Long Term Plan.

Local organisations have now been asked to work together, to develop their own plans, which will set out how the national plan will work across local areas.

The public are being asked for their views about how health and care services could be improved. They will also be asked to share their ideas on how people can live healthier lives and what improvements they think could be made to help people access services quickly.

For more information on and to complete the survey (by 30th April 2019) visit:
